**Youth Day of Service 2020
Youth4SDGs**

August 2020

Overview

Nigeria is fortunate to have a youthful population. Currently 62% of Nigeria's over 200 million population are under 25 years old. Imagine if each young person was inspired, empowered and equipped to rally others and carry out service projects in their communities?

On August 12, 2020, LEAP Africa in collaboration with other development, public and private sector organizations launched Youth Day of Service. Youth Day of Service (YDOS) is an annual youth-led social impact campaign initiated by LEAP Africa to empower young people, strengthen communities and trigger collective action that would move us closer to achieving the SDGs with 2030 in view. It is Youth and Personal Leadership in Action!

To celebrate 'International Youth Day' on August 12, LEAP Africa invited young people, corporate organizations, public and social sector organizations, SMEs, to become advocates and renew the spirit of active youth citizenship with emphasis on spreading the culture of service and collective responsibility. The theme for this year's campaign was "Youth4SDGs."

LEAP Africa:

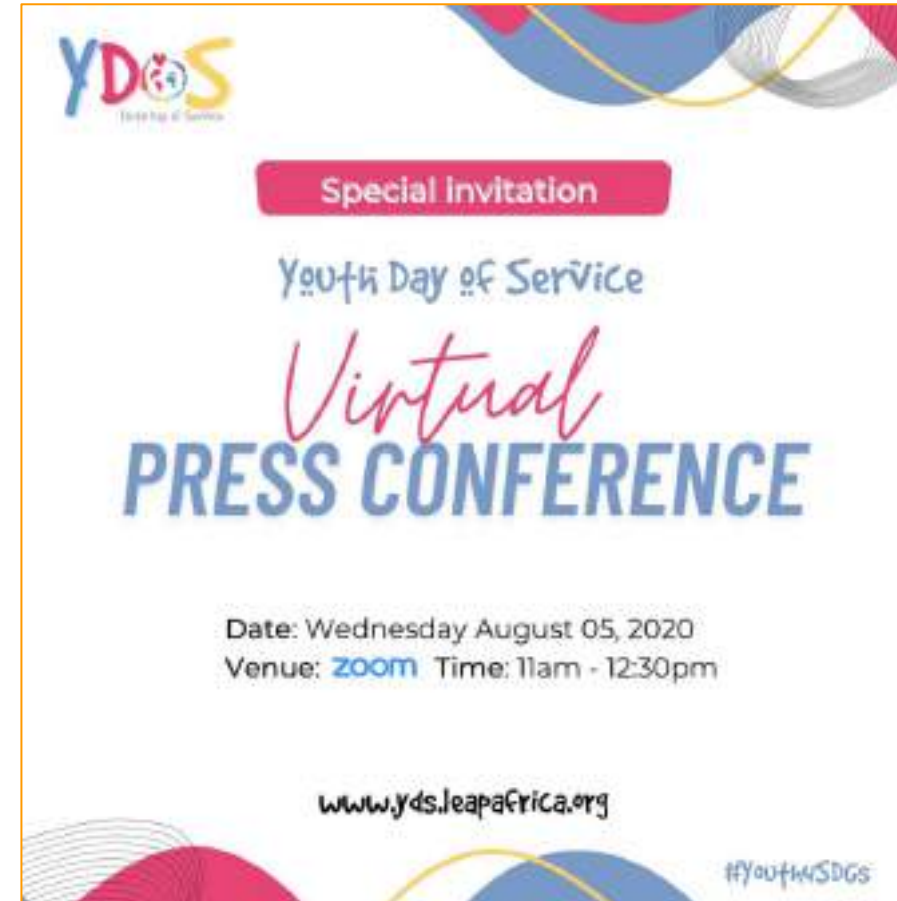

- Created platforms to project young people as change agents, able to influence and create change using their talents, and provided them with resources, tools and networks and networks to plan and implement their social change projects
- Rallied key stakeholders in the youth ecosystem to partner with young people to address challenges in their communities
